The DMUN Foundation is a non-governmental organization dedicated to promoting global education, youth engagement, and international cooperation. Through its initiatives, the Foundation seeks to strengthen young people's understanding of diplomacy, peacebuilding, disarmament, and multilateral processes within the United Nations framework.

As this will be the Foundation's first participation in the BWC meetings, the DMUN Foundation wishes to highlight its prior involvement in United Nations-related educational and awareness initiatives, including capacity-building sessions, workshops, and training programmes on disarmament and non-proliferation.

The Foundation continues to work closely with academic institutions and international partners to promote constructive dialogue on global governance and peace education.
